

Subject Name & Code : Industrial Engineering ( PCME704 )

Exam Name : Q1

1. The following type of layout is preferred to manufacture a standard product in large quantity [ A ]  
 A) Product layout      B) Process layout      C) Fixed position layout      D) Combination layout
  
2. Which of the following is an Organization principle? [ D ]  
 A) Division of labour      B) Scalar Chain      C) Functional process      D) all of the mentioned
  
3. Which of the following layouts is suited for mass production? [ B ]  
 A) Process layout      B) Product layout      C) Fixed position layout      D) Plant layout
  
4. For a product layout the material handling equipment must [ D ]  
 A) Have full flexibility      B) Employ conveyor belts, trucks, tractors etc.      C) Be a general purpose type      D) Be designed as special purpose for a particular application
  
5. Basic tool in work study is [ D ]  
 A) Graph paper      B) Process chart      C) Planning chart      D) Stop watch
  
6. ..... is also known as management by result [ B ]  
 A) management by subordinate      B) management by objectives      C) management by art      D) management by planning
  
7. ..... are guides to action [ C ]  
 A) strategy      B) planning      C) policies      D) procedure
  
8. operational planning is undertaken at..... [ B ]  
 A) Top level      B) lower level      C) middle level      D) all of the mentioned
  
9. planning provides ..... [ C ]

A) information to outsiders      B) basis for recruitment and selections      C) purpose and direction of all of the mentioned persons      D) None of the mentioned

10. planning involves..... [ A ]  
A) future course of action      B) review of past performance      C) analysis of policies      D) all of the mentioned

11. Planning is ..... [ D ]  
A) pervasive      B) futuristic      C) continues      D) all of the mentioned

12. Which of the following is not a function of management? [ C ]  
A) planning      B) staffing      C) co-operation      D) controlling

13. ..... is a systematic way of handling regular events [ A ]  
A) procedure      B) rules      C) policies      D) strategy

14. Management by objective [ A ]  
A) goal oriented      B) work oriented      C) none of the mentioned      D) time oriented

15. Planning process begins with [ A ]  
A) setting objectives      B) identify alternatives      C) developing planning premise      D) selecting alternatives

16. planning is [ C ]  
A) forward looking      B) backward looking      C) both forward and backward looking      D) None of the mentioned

17. It is a function of management which refers to the process of integrating the activities of different units of organisation to achieve the organisation goals. [ C ]  
A) Actuating      B) controlling      C) co-ordination      D) planning

18. Find the odd one out [ D ]  
A) goals      B) objective      C) polices      D) motivation

19. Buget is an instrument of [ A ]

A) planning only	B) control only	C) both planning and control	D) None of the mentioned
20. .... are the prescribe guidelines for conducting an action			[ D ]
A) Rules	B) Method	C) Budget	D) policy
21. The purpose and the aim for which the organisation is set up and operate is call of the mentioned			[ A ]
A) objective	B) strategy	C) policy	D) procedure
22. Henry fayol is well known.....			[ A ]
A) As the father of scientific management	B) for formulating general principles of management	C) for promoting trade unionism	D) None of the mentioned
23. unity of command implies			[ C ]
A) A subordinate should receive orders from all of the mentioned the superiors	B) individuals must sacrifice in the larger interest	C) be accountable to one and only one superior	D) None of the mentioned
24. purpose of time study is .....			[ C ]
A) to remove wastage of time	B) to give timely assistance	C) to determine fair days work	D) watching time
25. Administration is a .....function			[ A ]
A) management	B) planning	C) directing	D) budgeting
26. The term hierarchy implies.....			[ B ]
A) departmentalisation	B) a definite ranking order	C) specialisation	D) None of the mentioned
27. The main aim of Taylor was to.....			[ B ]
A) improve labour relations	B) improve productivity	C) To attempt a general theory of management	D) None of the mentioned
28. The scientific technique of task setting is known as .....			[ C ]
A) work study	B) motion study	C) time study	D) method study
29. scientific analysis of work under scientific management requires			[ C ]

A) time study

B) motion study

C) Both time study &amp; motion study

D) work study

30. \_\_\_\_\_ is the first step in a manufacturing planning and control system [ D ]  
A) Maintaining the planned backlog      B) Maintaining the required inventory levels      C) Achieving the forecast      D) Production planning

31. Which among the following involves in planning process? [ C ]  
A) Selection of objective      B) determine the way to achieve objective      C) both objectives      D) None of the mentioned

32. Which among the following is a single use plan? [ D ]  
A) Objectives      B) Policies      C) Rules      D) Budget

33. \_\_\_\_\_ is a time table of work ? [ D ]  
A) Budget      B) Project      C) Programmes      D) Schedules

34. Which among the following is not an element of co-ordination [ D ]  
A) integration      B) balancing      C) proper timing      D) directing

35. management is..... function [ A ]  
A) Dynamic      B) controlling      C) directing      D) planning

36. Which of the following is not the functional areas of management ? [ D ]  
A) Production Management      B) Marketing Management      C) Personnel Management      D) Information Management

37. Which of following is not among the levels of management ? [ B ]  
A) Top level management      B) Intermediate Level      C) Middle level management      D) Lower level management

38. Top management is concerned with ..... [ C ]  
A) carrying suggestions upwards      B) maintaining liaison with the outside world      C) transmitting orders downwards      D) None of the mentioned

39. management is call of the mentioned a process because..... [ C ]

A) it is applicable to the manufacturing process      B) it is relevant for social organisation      C) it involves a series of action      D) all of the mentioned

40. Administration is..... [ A ]  
A) policy making      B) Active direction to get things done      C) executing the policy      D) None of the mentioned

41. ..... is defined as the functions of getting things done through people. [ A ]  
A) management      B) science      C) art      D) all of the mentioned

42. management is ..... [ B ]  
A) tangible      B) intangible      C) fictitious      D) all of the mentioned

43. co-ordination means..... [ C ]  
A) organising activities      B) Directing activities      C) synchronizing activities      D) both organising activities& Directing activities

44. Top management consists of ..... [ D ]  
A) financial managers      B) sales manager      C) personnel manager      D) Board of Directors and chief executives

45. Observe the following management principles and pick the odd one out. Justify your answer [ C ]  
A) unity of command      B) unity of direction      C) maximum output      D) equity

46. Administration is an activities at..... [ C ]  
A) lower level      B) Middle level      C) Higher level      D) workers

47. middle management..... [ C ]  
A) consists of departmental managers      B) motivates lower management      C) Both managements      D) None of the mentioned

48. Which of the following best describe 'Mental revolution '  
A) it implies change of attitude      B) the management workers should not play the game of one upmanship      C) both management and workers require each other      D) workers should be paid more wages [ A ]

49. The essence of management is ..... [ A ]  
A) co-ordination      B) planning      C) organising      D) Directing

50. which of the following is not true? [ D ]  
A) management is a social process      B) management is universal      C) management is an art      D) management is always bureaucratic

51. \_\_\_\_\_ is the decision making body of an organization ? [ B ]  
A) Decentralisation      B) Administration      C) Functional organisation      D) Leadership

52. Which among the following is not a nature of Management principles ? [ A ]  
A) Rigid      B) Universal      C) Relative      D) Human nature

53. Who is known as 'the Father of Modern Theory of Management' ? [ C ]  
A) Harold Koontz.      B) Henry Fayol      C) F.W. Taylor      D) Max Weber

54. Which of the following is not a Management Principle ? [ D ]  
A) Order      B) Discipline      C) Equity      D) Cooperation

55. Which scholar's definition on management is " Management is the art of getting things done through and with people in formall of the mentionedy organised groups". ? [ A ]  
A) Harold Koontz      B) J.N. Schulze      C) S. George      D) Henry Fayol

56. Which of the following is not a function of management ? [ B ]  
A) Planning      B) profit earning      C) Staffing      D) Budgeting

57. Which among the following is not a subsidiary function of management? [ D ]  
A) Decision making      B) Innovation      C) Communication      D) Motivation

58. Who is known as the father of scientific management? [ A ]  
A) F.W. Taylor      B) Max Weber      C) Henry Fayol      D) S.George

59. Management is [ C ]

A) an art	B) a science	C) both art and science	D) neither
-----------	--------------	-------------------------	------------

60. management is need at ..... [ D ]

A) Top level	B) Middle level	C) lower level	D) all of the mentioned
--------------	-----------------	----------------	-------------------------

61. Policy formulation is the function of [ A ]

A) top level management	B) middle level management	C) operational management	D) all of the mentioned
-------------------------	----------------------------	---------------------------	-------------------------

62. \_\_\_\_\_ are also call of the mentioned partners [ D ]

A) board of directors	B) chief executive	C) foremen	D) shareholders
-----------------------	--------------------	------------	-----------------

63. How are principles of management formed [ B ]

A) In a laboratory	B) By experiences of management	C) By experiences of customers	D) By propagation of social scientists
--------------------	---------------------------------	--------------------------------	--

64. Henry Fayol was a [ B ]

A) Social scientists	B) Mining engineer	C) Accountant	D) Production engineer
----------------------	--------------------	---------------	------------------------

65. Which of the following is Not a principle of management given by Taylor [ B ]

A) Science, not rule of Thumb	B) Functional foremanship	C) Maximum ,not restricted output	D) Harmony not discord
-------------------------------	---------------------------	-----------------------------------	------------------------

66. Which of the following statement best described the principle of 'Division of work ' [ D ]

A) work should be divided into small of the mentioned tasks	B) labour should be divided	C) resource should be divided among jobs	D) it leads to specialisation
---	-----------------------------	--	-------------------------------

67. The principals of management are significant because of [ D ]

A) increase in efficiency	B) Initiative	C) optimum utilisation of resources	D) Adaptation of changing technology
---------------------------	---------------	-------------------------------------	--------------------------------------

68. The following type of layout is preferred for low volume production of non standard products [ B ]

A) Product layout	B) Process layout	C) Fixed position layout	D) Combination layout
-------------------	-------------------	--------------------------	-----------------------

69. By the beginning of ..... the industries in USA realised the importance of Management Science in solving business and management problems. [ C ]

A) 1930s

B) 1940s

C) 1950s

D) 1960s

70. Authority refers to ..... [ A ]  
 A) Getting work done      B) right to get work done      C) being in a management position      D) None of the mentioned

71. organising is ..... [ B ]  
 A) A remedy for types of problems      B) ensure accurate forecasting      C) none of the mentioned      D) all of the mentioned

72. Organising process involves ..... [ B ]  
 A) division of work      B) grouping of identical work      C) all of the mentioned      D) None of the mentioned

73. Formal organisation is ..... [ A ]  
 A) created by management      B) A result of social interaction      C) To satisfy cultural needs      D) None of the mentioned

74. organising deals with ..... [ C ]  
 A) division of work      B) decentralising activities      C) centralisation activities      D) all of the mentioned

75. principles of specialisation requires ..... [ A ]  
 A) Division of labour      B) centralisation of work      C) decentralisation of work      D) None of the mentioned

76. centralisation refers to ..... [ A ]  
 A) retention of decision making authority      B) dispersal of decision making authority      C) creating divisions as profit centres      D) opening new centres of branches

77. Delegation is ..... [ A ]  
 A) Getting things done by others      B) fixing of responsibility      C) Assigning the task      D) unity of command

78. Accountability means ..... [ B ]  
 A) Delegation      B) responsibility      C) Authority      D) Answerability

79. Which of the following is not an element of delegation [ D ]  
 A) accountability      B) authority      C) responsibility      D) informal organisation

80. The right to give orders and power to obedient is [ C ]  
 A) Responsibility      B) Accountability      C) Authority      D) Delegation

81. method study is ..... [ A ]  
 A) preliminary survey of production Process    B) study of the movement of a work    C) study of operational efficiency    D) all of the mentioned

82. Management should find ' One best way ' to perform a task. Which technique of Scientific management is defined in this sentence [ D ]  
 A) Time study      B) Motion study      C) Fatigue study      D) Method study

83. In phase I application of x and R chart, the control limits obtained from the equations are treated as \_\_\_\_\_ [ B ]  
 A) Final limits      B) Trial limits      C) Warning limits      D) Pattern limits

84. Which term is having a closest meaning as Sampling Distributions? [ A ]  
 A) Control charts      B) On site inspection      C) Whole lot inspection      D) Acceptance sampling

85. Process capability generall of the mentionedy uses \_\_\_\_\_ [ B ]  
 A) Specifications      B) Control Limits      C) Process standard deviation      D) Mean of any one sample

86. A tolerance diagram is also call of the mentioneded \_\_\_\_\_ [ D ]  
 A) Scatter diagram      B) Defect concentration diagram      C) Histogram      D) Tier chart

87. Is there any relationship between specification limits and control limits of x and R charts? [ C ]  
 A) Yes, Specification limits = Control limits    B) Yes, Control limits=Specification limits/2    C) No    D) Yes, Control limits\*0.5 = Specification limits

88. Control limits are \_\_\_\_\_ [ B ]  
 A) Limits defined by customers      B) Limits driven by the natural variability of the process      C) Limits driven by the inherent variability of the process      D) Statistical limits

89. The natural variability of the process is measured by \_\_\_\_\_ [ C ]  
 A) Process mean      B) Sample standard deviation      C) Process standard deviation      D) Sample mean

90. What type of chart will be used to plot the number of defectives in the output of any process? [ D ]

A) x bar chart      B) R chart      C) c chart      D) p chart

91. \_\_\_\_\_ uses statistical sampling to determine whether to accept or reject a production lot of material [ B ]

A) Systematic sampling      B) Acceptance sampling      C) Stratified sampling      D) Clustered sampling

92. Acceptance sampling is employed when? [ D ]

A) testing is destructive      B) the cost of 100% inspection is very high      C) 100% inspection takes too long      D) all of the mentioned

93. Middle management in organization structure includes the following? [ A ]

A) Departmental manager      B) Managing director      C) Workers      D) other staff

94. Which of these is not a correct statement for Acceptance Sampling? [ D ]

A) Concerned with inspection of products      B) Concerned with decision making regarding products      C) One of the oldest aspects of quality assurance      D) One of the oldest aspects of quality control

95. Which of these is not an advantage of acceptance sampling over the 100% sampling plan? [ C ]

A) Less expensive      B) Applicable to destructive testing      C) Highly costly      D) Lesser manpower is needed

96. Acceptance sampling can be used as \_\_\_\_\_ [ D ]

A) Incoming inspection activity      B) Outgoing inspection activity      C) Neither incoming nor outgoing inspection activity      D) Both, incoming and outgoing inspection activity

97. Which of these requires planning and documentation of the sampling procedure? [ A ]

A) Acceptance sampling      B) 100% sampling      C) 0% sampling      D) 50% sampling

98. \_\_\_\_\_ is a method of quality control which employs statistical methods to monitor and control a process. [ C ]

A) Statistical Quality Control      B) Statistical Process Chart      C) Statistical Process Control      D) Statistical Process Capability

99. SPC must be practiced in \_\_\_\_\_ phases. [ B ]

A) 1      B) 2      C) 3      D) 4

100. SPC was pioneered by Walter A. Shewhart at Bell Laboratories in the early? [ C ]  
A) 1900s B) 1910s C) 1920s D) 1930s

101. \_\_\_\_\_ are sometimes referred to as non-assignable, or normal sources of variation. [ B ]  
A) Special causes B) Common causes C) Both D) None of the mentioned

102. Quality is \_\_\_\_\_ variability. [ C ]  
A) opposite of B) proportional to C) reciprocal of D) synonym of

103. In the low level of maturity of any organization, the technique of quality improvement that is used the most is \_\_\_\_\_ [ D ]  
A) statistical process control B) design of experiments C) regression analysis D) acceptance sampling

104. Which one of these is a dimension of quality? [ D ]  
A) Hazard Rate B) Process Capability C) Control Limits D) Performance

105. Control chart is a useful \_\_\_\_\_ [ C ]  
A) manufacturing process B) process monitoring technique C) off-line quality control tool D) part of acceptance sampling techniques

106. Work study consists of [ D ]  
A) Effective use of plant and equipment B) Effective use of human effort C) Evaluation of human work D) all of the mentioned

107. Procurement is another name for? [ B ]  
A) consumption B) disposition C) budgeting D) purchasing

108. Which of the following is the sequence of operations through which a product must pass? [ D ]  
A) scheduling B) critical path C) transformation process D) routing

109. A planning system that schedules the precise quantity of materials needed to make a product is call of the mentioned [ C ]  
A) flexible scheduling B) cycle time management C) material requirements planning D) economic order quantities

110. Work study is also recognised as [ C ]

A) Time study

B) Motion study

C) Both time study &amp; motion study

D) None of the mentioned

[ A ]

111. The correct order of procedure in method study is

A) Select – Record – Examine – Develop – Define – Install of the mentioned – Maintain

B) Select – Define – Examine – Develop – Record – Install of the mentioned – Maintain

C) Select – Record – Develop – Examine – Define – Install of the mentioned – Maintain

D) Select – Record – Examine – Define – Develop – Install of the mentioned – Maintain

[ D ]

112. The following factor(s) must be considered while selecting the work for method study

A) Economic considerations

B) Technical considerations

C) Human reactions

D) all of the mentioned

[ D ]

113. In process charts, the symbol used for storage is

A) Circle

B) Square

C) Arrow

D) Triangle

[ B ]

114. In process charts, the symbol used for inspection is

A) Circle

B) Square

C) Arrow

D) Triangle

[ C ]

115. Delay occurs when

A) someone stops the process

B) product wait for next event (operation)

C) someone stops the process and product wait for next event (operation)

D) None of the mentioned

[ A ]

116. The outline (operation) process chart, the following symbols are used

A) operation and inspection

B) operation and transportation

C) inspection and transportation

D) operation and storage

[ D ]

117. The following is (are) the type(s) of flow process chart. Man type ii. Material type iii. Equipment type The correct answer is

A) only i

B) i &amp; ii

C) ii &amp; iii

D) all of the mentioned

[ D ]

118. Which of the following industries should be located near the vicinity of raw materials?

A) Cycles

B) Televisions

C) Sewing machines

D) Steel mills

[ A ]

119. For which of the following industry humid climate is helpful

A) Cotton

B) Steel

C) Light Bulb

D) Automobile

120. Buildings for foundries and steel mills are often of the [ C ]  
A) Flat roof      B) Saw tooth      C) Highbay      D) Bow string

121. If all of the mentioned the processing equipment and machines are arranged according to the sequence of operations of a product the layout is known as [ A ]  
A) Product layout      B) Process layout      C) Fixed position layout      D) Combination layout

122. The raw materials, components, completed or partiall of the mentionedy completed products, and pieces of equipment a firm uses are often referred to as [ A ]  
A) Inventory      B) order quantities      C) production      D) outputs

123. Which of the following brings all of the mentioned resources required to create a product to a central location? [ A ]  
A) fixed-position layout      B) process layout      C) product layout      D) continuous layout

124. In a large company, the department charged with determining the actual processes to be used in turning inputs to outputs is [ C ]  
A) marketing research      B) engineering      C) operations      D) product planning

125. Procuring an item in staggering deliveries according to the delivery schedule finished to the supplier by the buyer. [ C ]  
A) Seasonal Buying      B) Hand to mouth buying      C) Scheduled Buying      D) Tender Buying

126. Resources such as labor materials and energy are known as \_\_\_ in the transformation process [ D ]  
A) outputs      B) intangibles      C) factors of production      D) inputs

127. A series of quality assurance standards designed to ensure consistent product quality under many conditions is known as [ D ]  
A) statistical process control      B) total quality standards      C) total quality management      D) ISO 9000

128. What is span of Control? [ A ]  
A) No of subordinates under one superior      B) span of superior      C) Authority level      D) No of superiors

129. The following type of layout is preferred to manufacture a standard product in small of the mentioned quantity [ C ]  
A) Product layout      B) Process layout      C) Fixed position layout      D) Combination layout

130. The following type of layout is preferred for ship building [ C ]  
 A) Product layout      B) Process layout      C) Fixed position layout      D) Combination layout

131. In ship manufacturing, the type of layout preferred is [ C ]  
 A) Product layout      B) Process layout      C) Fixed position layout      D) Combination layout

132. This chart is a graphic representation of all of the mentioned the production activities occurring on the shop floor [ B ]  
 A) Operation process chart      B) Flow process chart      C) Templates      D) all of the mentioned

133. Raw Materials and WIP can be classified under \_\_\_\_\_ [ B ]  
 A) Indirect Material      B) Direct Material      C) Finished Material      D) Standard Parts

134. \_\_\_\_\_ are the basic materials which have not undergone any conversion since their receipt from suppliers. [ B ]  
 A) WIP      B) Raw Material      C) Finished Parts      D) Work Made Parts

135. Buying according to the requirements is call of the mentioned \_\_\_\_\_ [ B ]  
 A) Seasonal Buying      B) Hand to mouth buying      C) Scheduled Buying      D) Tender Buying

136. Which is not a part of 5R's of buying? [ D ]  
 A) Right Quality      B) Right Quantity      C) Right Source      D) buying

137. The business cycle, price trends, National Economy is \_\_\_\_\_ [ B ]  
 A) Micro Factors      B) Macro Factors      C) Controllable Factors      D) None of the mentioned

138. \_\_\_\_\_ also call of the mentioned part lists or building lists is the document generated at the design stage. [ B ]  
 A) MRP (Material Requirement Planning)      B) BOM (Bill of Materials)      C) MPS (Master Production Schedule)      D) None of the mentioned

139. Purchasing responsibilities can be divided into Buying, Clerical and \_\_\_\_\_ division. [ B ]  
 A) Packing      B) Traffic      C) Record      D) Follow up

140. The first activity of Purchasing cycle is \_\_\_\_\_ [ C ]

A) Communicating requirement to the purchase      B) Source Selection and development      C) Recognizing the need for procurement      D) Inspection of goods

141. \_\_\_ is the time that elapses between issuing replenishment order and receiving the material in stores. [ B ]

A) Replenishment time      B) Lead time      C) Idle-time      D) None of the mentioned

142. \_\_\_ is the scientific technique for planning the ordering and usage of materials at various levels of production and for monitoring the stocks during these transactions. [ B ]

A) MPS      B) MRP      C) BOM      D) None of the mentioned

143. \_\_\_ is the task of buying goods of the right quality, in the right quantities, at the right time and at the right price. [ B ]

A) Supplying      B) Purchasing      C) Scrutinizing      D) None of the mentioned

144. \_\_\_ involves building an item in self-contained units that can be combined or interchanged to create different products. [ D ]

A) Customization      B) Standardization      C) Process control      D) Modular design

145. Making identical, interchangeable components or complete products is referred to as [ B ]

A) customization      B) standardization      C) engineering      D) mechanization

146. Unique products are generally produced through [ A ]

A) customization      B) disposition      C) standardization      D) mechanization

147. Customers' perceptions are important in determining [ A ]

A) economic order quantities      B) production schedules      C) product specifications      D) quality

148. The activities and processes used in making both tangible and intangible products is known as [ C ]

A) manufacturing      B) production      C) operations      D) the transformation process

149. Industrial engineering and management refers [ C ]

A) only management      B) only industry      C) both management and industry      D) None of the mentioned

150. The development and administration of the activities involved in transforming resources into goods and services is known as [ A ]

A) operations management	B) Manufacturing	C) the transformation process	D) production
--------------------------	------------------	-------------------------------	---------------

151. Which of the following is NOT a difference between manufacturers and service providers? [ D ]

A) nature and consumption of output	B) uniformity of inputs	C) uniformity of outputs	D) nature and consumption of input
-------------------------------------	-------------------------	--------------------------	------------------------------------

152. The degree to which a good or service meets the demands and requirements of customers is call of the mentioned [ A ]

A) Quality	B) customer satisfaction	C) effectiveness	D) productivity.
------------	--------------------------	------------------	------------------

153. In ABC analysis 'A' class consist of items having \_\_\_\_\_ [ A ]

A) Accurate records	B) Good records	C) Minimal records	D) No records
---------------------	-----------------	--------------------	---------------

154. An example of fixed asset [ A ]

A) Live stock	B) Value stock	C) Income stock	D) all of the mentioned
---------------	----------------	-----------------	-------------------------

155. XYZ analysis is more used in relation of the customer demand for [ B ]

A) raw goods	B) finished goods	C) Both raw goods & finished goods	D) Live stock
--------------	-------------------	------------------------------------	---------------

156. Which of the following statements about ABC analysis is false? [ D ]

A) ABC analysis is based on the presumption that controlling the few most important items produces the vast majority of inventory savings	B) In ABC analysis, "A" Items are tightly controlled, have accurate records, and receive regular review by major decision makers	C) ABC analysis is based on the presumption that all of the mentioned items must be tightly controlled to produce important cost savings	D) In ABC analysis, "C" Items have minimal records, periodic review, and simple controls
---	--	--	--

157. The two most basic inventory questions answered by the typical inventory model are [ C ]

A) timing and cost of orders	B) quantity and cost of orders	C) timing and quantity of orders	D) order quantity and service level
------------------------------	--------------------------------	----------------------------------	-------------------------------------

158. The cost of insurance and taxes are included in [ C ]

A) Cost of ordering	B) Set up cost	C) Inventory carrying cost	D) Cost of shortages
---------------------	----------------	----------------------------	----------------------

159. 'Buffer stock' is the level of stock [ C ]

A) Half of the actual stock	B) At which the ordering process should start	C) Minimum stock level below which actual stock should not fall of the mentioned	D) Maximum stock in inventory
-----------------------------	---	--	-------------------------------
