THE OFFICIAL NEWS LETTER OF THE DEPARTMENT OF CSE

USHARAMA
COLLEGE OF ENGINEERING AND TECHNOLOGY
(AUTONOMOUS)

ARTICLE

Acknowledgement:

The main objective of this series is to show why programming language exist? And to point out the link between programming, science and all the existence. in order to keep this series clean and simple, I solely concentrated on concepts, logics and avoided deep analysis of mathematical formulas and such complex stuff. this series can only given you rough idea of every concept.

Index:

1: def machines(programming):

2: def space(Automation):

3: def medicine(programming):

Chapter 2: def medicine (programming):

Introduction:

According to the wikipedia, medicine is the science and practice of establishing the diagnosis, prognosis, treatment, and prevention of disease. Medicine encompasses a variety of health care practices evolved to maintain and restore health by the prevention and treatment of illness. Contemporary medicine applies biomedical sciences, biomedical research, genetics, and medical technology to diagnose, treat, and prevent injury and disease, typically through pharmaceuticals or surgery, but also through therapies as diverse as psychotherapy, external splints and traction, medical devices, biologics, and ionizing radiation, amongst others.

Without medicine our lives are unpredictable. but how programming can really be helpful in this field? let's try to understand that.

Diving in.....

In medicine, we can use programming for maintenance, surgeries and predictions too. So, programming covers all the areas in this bigger field of medicine. Let's go deep about each of those.

1) Analysis and prediction:

One of the chief ML application in healthcare is the identification and diagnosis of diseases and ailments which are otherwise considered hard-to-diagnose. This can include anything from cancers which are tough to catch during the initial stages, to other genetic diseases. IBM Watson Genomics is a prime example of how integrating cognitive computing with genome-based tumor sequencing can help in making a fast diagnosis. Berg, the biopharma giant is leveraging AI to develop therapeutic treatments in areas such as oncology. P1vital's Predict (Predicting Response to Depression Treatment) aims to develop a commercially feasible way to diagnose and provide treatment in routine clinical conditions. Simply, by analysing all the previous and present conditions of patient, an algorithm will analyse and predict exact medical problem the patient has and what measures are needed to be taken care of and what diagnosis does the patient require, will be given as output.

2) Surgeries:

Robotic surgery, or robot-assisted surgery, allows doctors to perform many types of complex procedures with more precision, flexibility and control than is possible with conventional techniques. Robotic surgery is usually associated with minimally invasive surgery, procedures performed through tiny incisions. It is also sometimes used in certain traditional open surgical procedures. The most widely used clinical robotic surgical system includes a camera arm and mechanical arms with surgical instruments attached to them. The surgeon controls the arms while seated at a computer console near the operating table. The console gives the surgeon a high-definition, magnified, 3-D view of the surgical site. The surgeon leads other team members who assist during the operation. All these arms are controlled by software designed specifically to it.

3)Maintenance:

Maintaining up-to-date health records is an exhaustive process, and while technology has played its part in easing the data entry process, the truth is that even now, a majority of the processes take a lot of time to complete. The main role of machine learning in healthcare is to ease processes to save time, effort, and money. Document classification methods using vector machines and ML-based OCR recognition techniques are slowly gathering steam, such as Google's Cloud Vision API and MATLAB's machine learning-based handwriting recognition technology. machines and ML-based OCR recognition techniques are slowly gathering steam, such as Google's Cloud Vision API and MATLAB's machine learning-based handwriting recognition technology. MIT is today at the cutting edge of developing the next generation of intelligent, smart health records, which will incorporate ML-based tools from the ground up to help with diagnosis, clinical treatment suggestions, etc.

And the most basic thing, Webpages and internet pages which can help us to organise all the things.

Medicine is necessary field and also has its own defects. But with programming, we can over come most of those.

To be continued..

IV year CSE A

INTERNSHIP CERTIFICATE

Avanigadda Bandhavi, 3rd year student of usha rama college of engineering & Technology has successfully completed a student partner internship at inventrom private Ltd for the duration of 2 month from 19\08\2019 to 25\10\2019.

During this internship she got to learn the concepts of internet of things (IOI)& machine learning(ML), brand awareness and business development of the bott IOT and ML video training

Talupula Sahithi was awarded an NPTEL online Certification for successfully completing the course Design and Analysis with a consolidated score 45%. the total number of candidates certified in this course was 465 candidates.

STUDENTS PLACEMENTS

*4th year students K.Bhanu Phani got selected in ADP (Automatic Data Processing Inc) with the package of 5 lakhs per Annum.

*Four of 4th year usha rama college of engineering & Technology students got selected in Cognizant Technologies. They are.

1)K.Kiranmai

2)B.Sravya Likitha

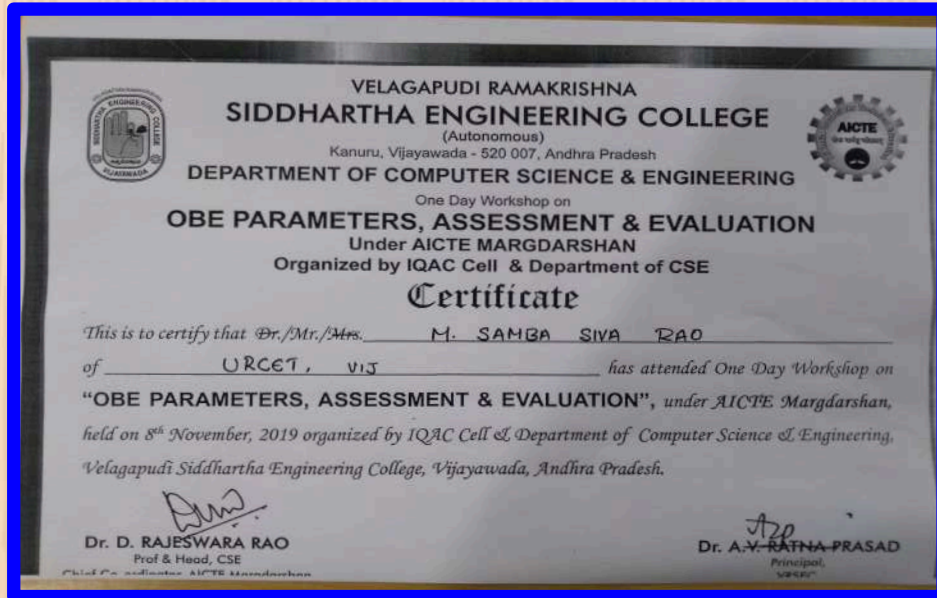

3)M.Swetha

4)K.pallavi

cognizant

Faculty achievement

M.Siva Sankar Nayak and M.samba Siva Rao of usha rama college of Engineering & Technology in CSE department has attended one day workshop on "OBE PARAMETERS, ASSESSMENT & EVALUATION", under AICTE margdarshan held on 8th November, 2019 organized by IOAC cell of department of computer science & Engineering, velagapudi siddhartha engineering college, vijayawada, Andhra pradesh

Faculty orientation program

N.mounika, Assistant professor of CSE department in usha rama collage of Engineering collage gave a Faculty Orientation on "consequences of Software Bugs" on 30th November 2019 in R304 room at 12:15 p.m

Inauguration of URCET CSI student branch

In computer science of engineering & technology had an inauguration function for "URCE CSI student Branch" on wednesday, november 27, 2019 at 10am. at R block seminar Hall.

The chief Guest was Dr.J Rajesh Chowdary the chairman of CSI, vijayawada,A.p.had kindly delivered the inaugural & keynote address. The CSI A.P state student coordinator of Ap ie., Dr.A.v.Praveen Krishna were invited for the inauguration of CSI student branch.

This inauguration of CSI student branch was done in the presence of Shri Sunkara Rama Brahman, chairman(URCE)

Dr.K Rajasekhar Rao, Director-URCET

Dr.GUKSV prasad,Principal-URCETV

Dr.S M Roychoudri,HOD/CSE-URCET

ISO 9001 : 2015 Certified Institution

Approved by AICTE, New Delhi | Affiliated to JNTU Kakinada

USHARA RAMA
COLLEGE OF ENGINEERING AND TECHNOLOGY

NH-16, Telaprolu, Unguturu Mandalam, Near Gannavaram, Krishna District, AP - 521109.

(AUTONOMOUS)

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

Cordially invites you for the inauguration of
"URCET CSI STUDENT BRANCH"

Wednesday, November 27, 2019 @ 10am
• R-Block Seminar Hall

CHIEF GUEST

Dr.J.Rajesh Chowdhary [Chairman-CSI, Vijayawada -AP] **Dr.A.V.Praveen Krishna** [CSI-A.P State Student Coordinator]

Has kindly consented to deliver the inaugural & Keynote address

సాంకేతిక పరిజ్ఞానాన్ని పెంచుకోవాలి

గన్నవరం నవంబరు 27 (వారాప్రభ ప్రతినిధి) : సాంకేతిక పరిజ్ఞానాన్ని పెంచుకోవాలని సి.ఎన్.ఐ. చైర్మన్ డాక్టర్. రాజేశ్ చౌదరి పిలుపునిచ్చారు. బుధవారం ఉంగుటూరు మండలం తేలప్రోలు ఉషారామ ఇంజనీరింగ్ కళాశాల లో సి.ఎన్.ఐ.సభ్యత్వ కార్యక్రమం జరిగింది. ఈ సందర్భంగా కంప్యూటర్ సైన్స్ విద్యార్థులకు సభ్యత్వలు ప్రధానోత్సవం జరిగింది. డా.ప్రవీణ్ కీషోర్, విద్యార్థి ప్రసిడెంట్ డి.జెస్సీ మెరిడాస్, సెక్రటరీ సాయి ప్రియతమ్, ప్రిన్సిపాల్ డాక్టర్ జివీజివికె ప్రసాద్, డైరెక్టర్ డాక్టర్ కర్రె రాజశేఖర్, చైర్మన్ సుంకర రామ బ్రహ్మం లు అభినందించారు

Department of Computer Science & Engineering

Cordially invites you for the inauguration of
"URCET CSI STUDENT BRANCH"
 Wednesday, November 27, 2019 10 am.

® R - Block Seminar Hall
CHIEF GUEST
Dr. J Rajesh Chowdhary
 (Chairman - CSI, Vijayawada, A.P.,)
 has kindly consented to deliver the Inaugural & Keynote Address
Dr. A V Praveen Krishna
 (CSI - A.P State Student Coordinator, A.P.,)
In the Presence of
 Shri Sunkara Rama Brahmam, Chairman - URCET
 Dr.K Rajasekhara Rao, Director - URCET
 Dr.G V K S V Prasad, Prinsipal - URCET
 Dr. S M Roychoudri, HOD/CSE, URCET

Awareness Program

CYBER SECURITY

In usha rama college of engineering & technology computer science & engineering Department, under the banner of Computer society of India (csi) on 28th November 2019 organized a career oriented awareness program in cyber security by salient cyber sol (USA based company)

Usha Rama College of Engineering & Technology
(Autonomous)

Department of Computer Science & Engineering

Under the banner of Computer
Society of India (CSI)

Organizing
Career – Oriented Awareness Program
in CYBER SECURITY

by

Salient Cyber Sol
(USA Based Company)

Salient Cyber Sol

Salient Cyber Sol is Founded by Experienced Technology and business executives with proven corporate and entrepreneurial track record, supported by a team of skilled professionals over 15 plus years of experience in Information Technology Industry.

We are specialized in the field of Cyber Security & Blockchain services. Our goal is to partnering with clients to strengthen their key business processes by identifying critical issues and implementing innovative solutions.

Through the years, our organization has grown steadily into Knowledge Management & Cyber Security practice with solid reputation on dedicated technology practices with a highly experienced workforce.

We firmly believe that the quality of workforce drives the success of any initiative. Thus, our resources are our greatest asset, always focuses on providing the best qualified people to lead and support your initiatives.

Glimpses

“The computer was born to solve problems that did not exist before.”

— Bill Gates

“Software is a gas; it expands to fill its container.”

— Nathan Myhrvold

“Computers are good at following instructions, but not at reading your mind”

— Donald Knuth

“It is easier to change the specification to fit the program than vice versa.”

— Alan Perlis

“Simplicity, carried to the extreme, becomes elegance.”

— Jon Franklin

“The best way to predict the future is to implement it.”

— David Heinemeier Hansson

“If the code and the comments do not match, possibly both are incorrect.”

— Norm Schryer

TECHNICAL JOKES

EXECUTIVE MEMBERS:

- | | |
|-----------------------|---|
| MR. B. S. VARAPRASAD | - "EDITOR - IN - CHIEF"
- ASSISTANT PROFESSOR OF CSE DEPARTMENT |
| MS. V. RASHMI | - "ASSOCIATE EDITOR"
- ASSISTANT PROFESSOR OF CSE DEPARTMENT |
| MRS. S. ASWINI | - "MANUSCRIPT EDITOR"
- ASSISTANT PROFESSOR OF SCIENCES & HUMANITIES |
| MR. M. SAMBA SIVA RAO | - "TECHNICAL EDITOR"
- ASSOCIATE PROFESSOR OF CSE DEPARTMENT |

STUDENT REPRESENTATIVES:

- | | |
|--------------------|----------------|
| G. Gouri Seshasree | - II - cse -A |
| M. S. S. Kiran | - II - cse -B |
| G. Sahithi Priya | - II - cse -B |
| D. Jessey Mercedes | - III - cse -A |
| D. OmkarSai | - III - cse -A |
